FEES FOR THE INSPECTION OF COMMODITIES AND PRODUCTS
ASSIGNED TO THE GRAIN PRODUCTS BRANCH

Commodities and products inspected by the Grain Products Branch, Office of Marketing Services, War Food Administration, are divided into two major groups by types of services rendered, viz., (1) Commodities and products inspected to determine compliance with specifications under which bought and sold by Government Departments and Agencies; and (2) Commodities inspected pursuant to applicable regulations and official standards or instructions. There follows a list of commodities and products in each group, together with information on fees charged for these services.

1. Commodities and Products Inspected for Compliance with Specifications.

Fees for the inspection of these commodities and products are revised effective on all contracts consummated on and after July 1, 1945. The minimum fees per lots consisting of a carload or less are shown below. Fees for large lots will be computed at the carload rate. In cases involving unusual expense for time and travel to obtain samples, or for laboratory tests other than those usually required, such expense may be added to the fee stated. The cost of inspecting some of the items, such as multivitamin tablets, varies with the formula or the specifications. A statement of the cost of inspecting these items (*) will be furnished upon request and upon receipt of information relative to the quantity, location and specifications of the commodity or product to be inspected.
